**DETAILED ACTION**

***Claim Rejections - 35 USC § 102***

1. The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless –

(b) the invention was patented or described in a printed publication in this or a foreign country or in public use or on sale in this country, more than one year prior to the date of application for patent in the United States.

2. Claims 1, 12, 14 and 21 are rejected under 35 U.S.C. 102(b) as being anticipated by Leiber, et al (4,919,444).

Leiber, et al discloses a vehicle suspension system comprising a stabilizer bar 1; bar discs 19 connected to the vehicle wheel; a clutch device 4 wherein the clutch device houses the bar discs; and clutch discs 20 which are connected to the vehicle frame. The bar discs and the clutch discs interact to control a level of stiffness of the stabilizer bar. Leiber, et al teaches a plurality of clutch discs and a plurality of bar discs wherein the plurality of discs alternate. The stabilizer bar includes a division which splits the stabilizer bar into equal portions 2', 2" wherein the clutch device housing the division as shown in figure 2.

***Allowable Subject Matter***

3. Claims 16-20 are allowed.
4. Claims 2-11, 13 and 15 are objected to as being dependent upon a rejected base claim, but would be allowable if rewritten in independent form including all of the limitations of the base claim and any intervening claims.

Art Unit: 3616

***Response to Arguments***

Applicant's arguments with respect to claims 1, 12, 14 and 21 have been considered but are moot in view of the new ground(s) of rejection.

***Conclusion***

5. The prior art made of record and not relied upon is considered pertinent to applicant's disclosure. The Notice of References Cited list references disclosing some features in common with the present invention.
